OR \$1 MILLION CASH

LIFE-SAVING IMPACT. LIFE-CHANGING PRIZES.

YOUR SUPPORT MEANS BETTER HEALTH CARE IN OUR COMMUNITY

Because of your support, patients who receive care at Children's Hospital at London Health Sciences Centre, St. Joseph's Health Care London, and London Health Sciences Centre will benefit from enhanced patient care, innovative equipment, education and research. Collectively, these hospitals receive more than 1.9 million patient visits each year and serve as referral centres for patients and their families from across Southwestern Ontario and beyond.

Since 1996, Dream Lottery has raised **OVER \$65 Million** for London's hospitals.

IT'S A WIN-WIN thanks to loyal supporters like **YOU!**

Helping London's hospitals provide outstanding care to patients across our region through specialized treatment options, personalized care and groundbreaking research is a **BIG WIN** for the hospitals, and this year could be a **BIG WIN** for **YOU!**

Thank you for your continued support!

Never Miss Your Chance to Win!

MEET AMELIA AND HARPER

Born at just 24 weeks, twins Amelia and Harper relied on Children's Hospital's expert Neonatal Intensive Care Unit (NICU) team for feeding, breathing and developmental support. After more than 150 days in hospital the girls were strong enough to go home! Today, Amelia and Harper still visit Children's for regular check-ups, benefiting from fun, supportive programs with each visit. With one Dream Lottery ticket, more children can receive this life-changing care. Because of your support, hope lives at Children's Hospital.

MEET SARAH

After a devastating car accident left Sarah King with a spinal cord injury resulting in paralysis in her lower body, she found hope and independence at St. Joseph's Parkwood Institute. With compassionate care and advanced therapies from her physio and occupational therapists, she regained mobility and confidence. Thanks to this world-class team, Sarah now works at a preschool, lives independently and enjoys an active life with her dog, Chevy. She's deeply grateful for their support in helping to rebuild her life.

MEET TEENA

Teena Robb is a porter at University Hospital who's always loved staying active. Three years ago, a rash and leg pain—first thought to be shingles—led to sudden paralysis in her toes. Tests revealed a spinal fracture and bone fragment pinching a nerve, putting her at risk of permanent paralysis. At LHSC, Dr. Victor Yang and Dr. Marcelo Oppermann used advanced robotic technology for a precise, less invasive surgery. Today, Teena is pain-free, thriving in recovery, and grateful for a second chance at life.
